**Gregg Kragenbring** Not sure if they are compliments..... I would say they are just stating facts about a man with talents and a desire to inspire others....and one who deserves accolades for devotion to inspiring " the arts" with those he sees in the classroom... I see him tediously posting student art work in the hallways giving students the opportunity to share their imagination and supporting their accomplishments..

**Allison Condon** I totally agree!! Mr. Kulzer, I only had you as a teacher for one year, but by far the best I ever had!! You definitely made my senior year amazing! You really care for the students and not only for your classes. You really inspired me. I'm very lucky to have had the opportunity of you being my teacher 😊 I remember everyday that you were there you were always in a cheerful mood and had something nice and great to say, always made my mornings.

**Ashley Kellner** I agree with all you guys! Gerry Kulzer, you've made my high school days a blast! Your teaching was fun and easy to learn. You had us work with all kinds of medias from just a pencil to clay and working on the potters wheel. I've always loved art class and it makes the experience SO much better when you have a teacher who is also very passionate for it as well. When you'd work on those busts, you left me speechless on how someone could just slap on some clay and sculpt whoever you were replicating, it it looked exactly like the person!!!! How does someone do that?!!!! That's true talent right there!! 😊 You got me into photoshopping and illustrating and I ALWAYS looked forward to the next project. I took every project seriously because I loved it and I was just so much fun! You made it fun and challenging that kept me wanting to learn more. You've inspired me so much to keep doing what I love, no matter if it's anything to do with art or not. But I got back into my creative side into making my own jewelry. Thank you for helping me become who I am today!!
