Form and Volume = 3-D

The shapes below have Form and Volume. They look Three-Dimensional (3-D)
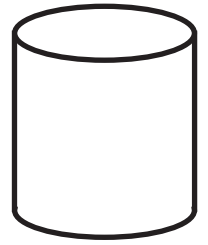

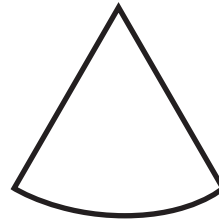

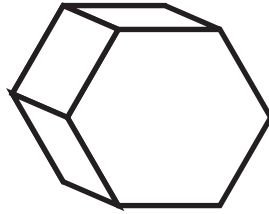

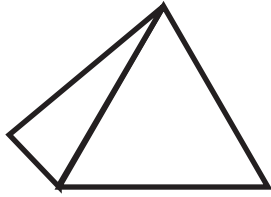

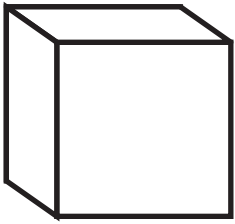

Make each shape below have "Form" and "Volume" by adding lines to the 2-d Shape shown.

Practice shading the rectangle here from black to white.

Sometimes Shading can make a shape have Form and Volume.

Try shading this oval so it looks like a hole in the ground.

Practice shading the ball here to make it have Form and Volume.

Now try making the shadow on the ground
